The FSC announced that the application for the 3<sup>rd</sup> Korea Fintech Week will be open from March 24 to April 7 for prospective businesses wishing to showcase their innovative fintech services.

The 2021 Korea Fintech Week is scheduled to be held from May 26 to 28 under the theme of “fintech and sustainable financial innovation.” The offline to online (O2O) international fintech expo will provide diverse promotional, vocational, educational and networking programs and opportunities that will help raise awareness on fintechs and accelerate financial innovation.

The event will feature five online exhibition halls and two online job fair halls. More than one hundred fintech firms will be given opportunities to present their services in five virtual exhibition halls—the fintech start-up hall, fintech scale-up hall, fintech supporter hall, financial enterprise hall and global enterprise hall. The online job fair halls will be hosted by some forty business entities and include both financial companies and fintechs.

While there are no participation fees, participating businesses need to prepare their own digital promotional materials.
